Dermalux Facials

Dermalux™ LED Phototherapy is an award-winning, non-invasive skin treatment which achieves excellent results. It uses light waves to accelerate the body's own natural repair process, reducing the signs of damage, whilst boosting the overall health and appearance of your skin.

It can be used to treat a number of common skin conditions, including: Acne, Eczema, Dermatitis, Skin ageing, Rosacea and Psoriasis.

It uses triple wave LEDs to deliver a combination of red, blue and near infrared light rays:

Red is very good for rejuvenation and anti-ageing

Blue is anti-bacterial so good for combatting any breakouts

Infrared rays play an important role in stopping any inflammation and healing.

Luxury Facial

Includes cleanse, exfoliation, Dermalux and moisturise.
